

New Tractor Truck Details

TractorFab has expanded our grill line! Now available are 806 for Ertl (below left) 806 Wheatland for Spec Cast conversions (below right), and '66, '68, & '86 series grills for Ertl tractors.

Step up the detail with our new step kits! Each kit includes 5 sizes of brand specific steps - simply select the correct size, and overlay these steps onto your tractor (above)! Kit #208 fits Case IH & New Holland, kit #209 fits JD & Massey/Challenger. #209 is also available pre-painted. These new kits are the first to introduce our new packaging, which includes a slip in card with product category & description on the front, and instructions on the back (left).

Above: An early release this year was cattle panel fencing. These are the combo style, with smaller openings at the bottom.

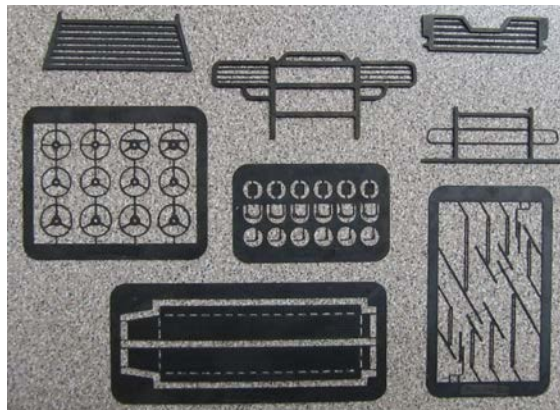

Additional National Farm Toy Show Release: 15' Rotary Hoe!

Our first complete implement kit is this all new rotary hoe! Made from brass, this kit will mount on a Moore's or C&D 3-point hitch. Hoe wheels also available separately (below)

Our first 1:50 scale kit is our popular tool set! This kit includes all of the hand tools as the 1:64 kit, only in brass (above right).

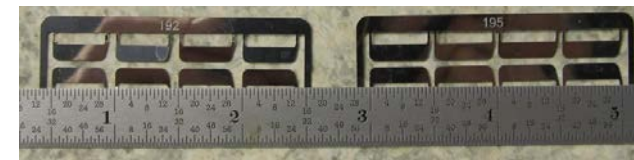

TractorFab is now offering a large selection of our detail parts in black. These are not painted, but rather treated with the black oxide process, giving them a fine, durable finish.

Complete new line of Semi Detail parts in High Polish Stainless Steel!

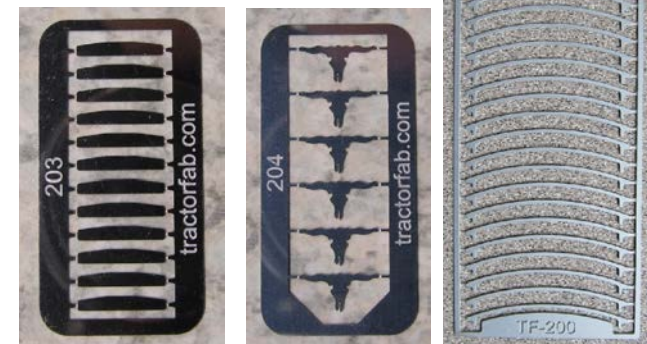

TractorFab is now offering a stunning line of new semi detail parts, providing an unprecedented level of detail to your semi fleet! These kits include (from top to bottom), Swan Hood Ornaments, Louvered & Bar Style Grills, Side shades, mudflap tips, long horns, and windshield trim. Also available are 96" tarp bows for custom grain body projects.

Above: Hood Swans. Below: A379/389 grill insert, & 3 versions of W900 grill overlays.

Two sizes of window trim for cab side windows, above. Mudflap details & 96" tarp bows below.

**Welcome to TractorFab - supplying
Photo-Etched Farm Toy Parts to
1/64 Scale Farm Enthusiasts.**

**Browse this catalog of over 30 new 2012
product releases we have available for 1/64
detail modelers!**

Introduced at the National Farm Toy
Show:

The 1/64 or S Scale vintage windmill kit is of all brass photo etched construction, and is the largest kit ever produced by TractorFab. The kit features a 10 foot diameter fan which can be built to spin, and the tail to swing. Also included is a 34 foot 4 post square tower, with complete "wood" base, pump, and ladder. The completed model stands about 7-1/2" tall.
